PORTABLE INSPECTION MAGNIFYING LAMP 18 WATT FLUORESCENT LIGHTING

**WITH EXTENDED 2 HOUR CONTINUOUS
BATTERY LIFE**

MODEL 2020-38 PROFESSIONAL SERIES 3.8" (96.5mm) DIAGONAL VIEWING LENS

- **UNLIMITED APPLICATIONS**
- **CHANGEABLE DIOPTR LENS**
- **12V BATTERY CHARGER INCLUDED**
- **RECHARGEABLE BATTERY INCLUDED**
- **CAR 12V EXTENSION CORD INCLUDED**
- **EXTENDED 2 HOUR BATTERY LIFE MODEL**
- **DESIGNED & MANUFACTURED IN THE U.S.A.**
- **CHANGEABLE LAMP COLOR TEMPERATURES**

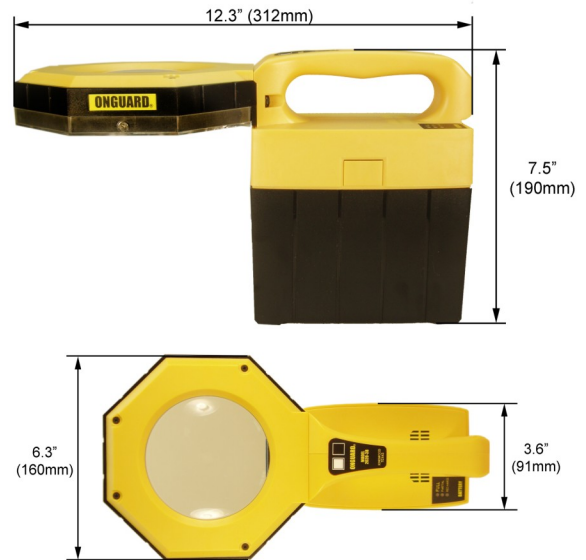

DESCRIPTION

The Onguard 2020-3.8 portable, inspection fluorescent lamp provides enough light to reveal the most intricate detail of the specimen under surveillance. Simply unlatch the upper handle assembly from the battery retainer and move the magnifying assembly freely within the proximity of the object to view. The upper lamp assembly attaches to the battery pack via a 24" (610mm) power cord. Unplug the cord from the lamp assembly and plug the car cigarette lighter adapter into the assembly to provide remote 12VDC power.

APPLICATIONS

- Nature
- Biology
- Medical
- Schools
- Hobbies
- Scientific
- Forensics
- Pathology
- Chemistry
- Laboratory
- Electronics
- Inspections
- Archeology
- Universities
- Dermatology
- Manufacturing
- Quality Control

DIMENSIONS

FEATURES

- Portable operation
- Interchangeable diopter lens
- Interchangeable color temperature lamps
- High quality polycarbonate case construction
- Large battery for over two hours of continuous operation
- Intense illumination on objects for the most demanding applications
- Compartment for storing extension cord to allow 8' (244cm) extension connection to a 12VDC car receptacle

OPERATION

REFER TO WWW.ALLESTEC.COM FOR THE COMPLETE OPERATIONS MANUAL
